Embracing innovation and contemporary aesthetics, our collection of interior doors showcases a harmonious blend of style and functionality. Whether you seek the timeless elegance of traditional designs or the sleek allure of modern trends, Forest View offers a vast array of options to cater to your personal taste. Our meticulously crafted doors are not only created to serve as stunning focal points but also to seamlessly integrate into any interior space. With the utmost attention to detail, we prioritize the use of high-quality materials, ensuring durability and longevity.

DOORS

FV DOOR DESIGN GUIDE

Choosing the perfect doors for your custom home project is made simple with Forest View's door collections. Curated by door style, you simply choose your door style(s) and customize it's options within the category.

1.

DOOR CONSTRUCTION

Forest View offers a wide range of construction types for Stile and rail doors to suit your application. These choices range from solid wood stile and rails to engineered with LSL core and varying skin and edge material. For a budget conscious project with paint grade application, we offer laminated core construction with MDF skin.

2.

DOOR STYLES

Choose from a curation of stile and rail constructed doors in our Traditional, Transitional, French and Barn Door Collections or customizable flush doors in our Modern Collection.

3.

DOOR THICKNESS

Our standard door thickness is 1-3/4" with special order options available in 1-3/8" & 2-1/4" thicknesses.

4.

PANEL PROFILES

Forest View's door options can be specified in either solid hardwood, MDF or engineered construction.

5.

FINISH

Choose from paint grade options to a selection of hardwoods and exotic woods to achieve your design vision.

TRADITIONAL COLLECTION

CONSTRUCTION

ENGINEERED

Forest View offers a range of engineered stile & rail doors by special order. The Stiles and Rails of engineered doors are made with LSL Core Construction. For paint grade application these doors are constructed with an 1/8" HDF skin, and for stain grade application, a veneer overlay. The door edges are Poplar for Paint grade and matching wood species for stain grade application.

SOLID

Forest View offers a range of solid stile & rail doors by special order. You can choose between poplar stiles & rails and/or a combination of exotic woods. Panels are available in flat or raised, in many different patterns.

Forest View has a comprehensive In-Stock program of wood mouldings that includes a wide range of profiles in American Poplar and Eastern Select White Pine. We have profiles for all requirements ranging from casings, back bands, baseboards, and is augmented by a range of panel mouldings, chair rails and stools, enabling you to easily create the design statement of your choice.

For your convenience, Forest View offers custom knife grinding, custom runs, and custom curves for special applications. A variety of exotic wood species are also available by special order.

ZIP-CLIK is a brand developed by Forest View Industries specific for contemporary design. This range of products is to solve or improve contemporary details through innovation.

ZIP CLIK®

ZIP CLIK® JAMB AND BASEBOARD SYSTEMS

The ZIP-CLIK® Select Series Jamb System is engineered to make it easier to create reveals for modern and contemporary designs after drywall is installed. The ZIP-CLIK® Select Series has a 'receiver' that is mounted into the back of a wood jamb. This 'receiver' creates a friction fit for the drywall reveal trim once the reveal trim is inserted into the opening.

MODERN DESIGN DETAILS MADE EASIER

Where applicable ZIP-CLIK® is engineered to make it easier to create perfectly consistent reveals.

REDUCE LABOUR COSTS

Multiple processes in less steps or the ability to facilitate pre-finished products easier, equates to a savings on labour costs.

QUALITY CONTROL

Quality Control is easier with ZIP-CLIK® products. Our available 'knock-down' kits offer excellent yield with reduced tendency for waste. The flange on our reveal trims are wider than most reveal products currently on the market, which provide a greater tolerance.

SMOOTHER JOB-SITE OPERATIONS

Jamb systems, for example, are set into place after the drywall is installed. The benefits are twofold; 1) Less tradespeople working around installed (finished) openings, 2) As job is further in the construction process when doors and jambs are installed, this equates to the site conditions being that much closer to having humidity controls in place when this occurs. This equates to a more stable environment which means reduced potential for expansion and contraction in the doors and openings.

The ZIP-CLIK® Select Series Jamb System is engineered to make it easier to create reveals for contemporary design after drywall is installed. The ZIP-CLIK® Select Series has a 'receiver' that is mounted into the back of a wood jamb. This 'receiver' creates a friction fit for the drywall reveal trim once the reveal trim is inserted into the opening.

KEY BENEFITS

- Sharp Connection at Jamb and Reveal.
- Consistent Reveal.
- Friction fit of reveal makes for increased tolerance.

The ZIP-CLIK® Select Series Jamb System is engineered to make it easier to create reveals for contemporary design after drywall is installed. The ZIP-CLIK® Select Series has a 'receiver' that is mounted into the back of a wood jamb. This 'receiver' creates a friction fit for the drywall reveal trim once the reveal trim is inserted into the opening.

KEY BENEFITS

- Sharp Connection at Jamb and Reveal.
- Consistent Reveal.
- Friction fit of reveal makes for increased tolerance.

ZIP CLIK CALCULATOR

ROUGH OPENING WIDTH FOR ZIP-CLIK® USING 3/4" JAMB:

A - Space between PVC and Stud	$0.25 \times 2 = 0.5$
B - Thickness of PVC	$0.0625 \times 2 = 0.125$
C - Reveal	$0.50 \times 2 = 1"$
D - Jamb Thickness*	$0.75 \times 2 = 1\text{-}1/2"$
E - Margin Between Door and Jamb	$0.125 \times 2 = 0.250$

- For Rough Opening Width Add 3-3/8" (85.7mm) to Door
- Add an Additional 0.0625" (1.6 mm) for Double Doors

*Many jamb thicknesses are available

ROUGH OPENING HEIGHT AFF* FOR ZIP-CLIK® USING 3/4" JAMB:

A - Space between PVC and Stud	$0.25 \times 1 = 0.25$
B - Thickness of PVC	$0.0625 \times 1 = 0.0625$
C - Reveal	$0.50 \times 1 = 0.50$
D - Jamb Thickness	$0.75 \times 1 = 0.75$
E - Margin Between Door and Jamb	$0.125 \times 1 = 0.125$
F - Distance Between Finished Floor and Door	$0.50 \times 1 = 0.50$

- Total Rough Opening Height—2 3/16" (55.6mm) added to door height AFF*
- *AFF (Above Finished Floor)

The Armado baseboard system has been developed in response to feedback from Architects, Tradespeople and others within the industry, to make the trades job easier to install a base that is flush with the wall and where there is a reveal or space between the base and the drywall.

The key benefit of the ZIP-CLIK® Bazik system is to provide a robust bottom edge of the drywall where a shadow line or reveal between the floor and the drywall is desired. The wood moulding inserted into the PVC profile is always touching the stud wall creating high resilience to this edge getting smashed or damaged where normal conditions may do so with most other drywall trims on the market.

COMPANY POLICIES

WARRANTY

Due to the wide variety of products that we offer, many items carry their own specific warranty.

Applicable warranties do not cover altered products/materials, and only covers replacement or reimbursement of material only. Reimbursement would be of equal or lesser value and would be at the discretion of Forest View Industries. Forest View Industries may request the return of product that has been deemed to have a manufacturing defect. Claims for material must be made within 24 hours upon receipt of goods.

Please note that natural characteristics and properties of a wood species are not considered defects. Products must be sealed against the elements to which they will be exposed to. Products must be handled properly and the jobsite moisture levels must be at suitable and acceptable levels in accordance with industry standards.

RETURN POLICY

We offer a return policy for resellable (unaltered) stock items. Our standard restocking charge is 25% and for customers returning the product, the restocking charge is 20%. Special order items are non-returnable.

JOBSITE DELIVERIES AND CONDITIONS

We offer a delivery service to the main floor. The pathway must be safe and free of obstructions. If the driver deems the delivery conditions are unsafe, we reserve the right to defer shipment.

PAYMENT AND ACCOUNTS

All payments shall be on a COD basis. We accept Visa, Master Card, Certified Cheques, Bank Draft, Money Transfer, E-Transfer, and Amex (with a 3% additional charge). We require a 50% deposit for all special order materials and a 30% deposit for stock ordered items in the amount over \$ 3,000.00. We reserve the right to change or adjust these terms as management sees fit.

Balance of payment is required before organizing of delivery.

All materials and products are to remain the property of Forest View Industries until paid for in full.

ACCURACY OF INFORMATION

While we have made every effort to ensure the accuracy of this catalogue, it is subject to change without notice. We are not responsible for any costs or issues incurred that may arise based on any inaccuracies that may be contained within this issue.

MATERIAL QUANTITY INVOICED

All materials are quoted on a per unit or per foot basis unless clearly indicated otherwise. Any materials shipped in addition to or below the quantity quoted will be invoiced accordingly.

WOOD MOULDING OVERAGES

We will do the best we can to fill the order to the clients' specifications, but we reserve the right to ship to the next even length available and charge for the full quantity prepared, in order to fill the clients requirements.

OVERAGES ON SPECIALS/CUSTOM WOOD MOULDINGS

In addition to the policy above, there may be higher percentage overage on small special runs in order to fill customers' needs. On special runs over 1000' this overage amount should not exceed 15%.

UNCLAIMED MATERIALS

Any materials or good's that have been left for over 90 days after notice has been given and arrangement for shipment or storage has not been made, will become the property of Forest View Industries.
